Mobi-Move
Travel – Safe • Secure

SCHOOL TRAVEL

As a Parent, you are legitimately concerned about your Child's safety while she / he travels to and from school ... You have zero visibility of your child after she / he boards the vehicle and is in transit – You get to know about your child only when she / he is dropped off after attending school – You have to frequently wait for the vehicle at the pick-up / drop-off point.

CORPORATE TRANSPORT

Mobimove enables emplyees availing office transport, parents of emplyees, corporate administrator, and vehicles drivers / coordinates to monitor in real time the movement of offices vehicles.

PUBLIC TRANSPORT

The rapid expansion and use of public transportation makes it necessary to seamlessly manatge and control operations for ensuring secure and reliable travel for passangers. Mobimove enables anyone availing public transport and public tansport authorities to monitor in real time the movement of public vehicles.

Attendance Management System

It is the mobile workforce handling maketing and sales functions, involved in outdoor services, and looking after installation jobs that works on-the-move most of the time. In a rapidly changing working environment, field enployees and a mobile workforce need to acess enterptise systems, data, and resources from any- where and at anytime using mobile devices, including Smartphones and Tablets.

Mobility Based Management

Key features include:

- **Location-Based Attendance**
  Record Attendance As Per Employee Location

- **Attendance In-And-Out Time**
  Confirm 'in-time' (entry) And 'out-time' (exit)

- **Attendance In-And-Out Location**
  Register Location-Based 'in-time' (entry) And 'out-time' (exit)

- **Total Working Hours**
  Calculate Hours Of Work As Per 'in-time' (entry) And 'out-time' (exit)

- **Attendance status**
  Update Presence (full Day, Half Day, Short Leave, Or Absent) as per Hours Of Work

Conveyance

- **Travel From-and-To Time Report**
  Provides report on time taken From-and-To a specific location

- **Travel From-and-To Location Report**
  Provides report on travel From-and-To a specific location

- **Travel Purpose-and-Proof Report**
  Allows uploading of image, document, and remark (in plain text) as travel proof

- **Travel Distance (km) Report**
  Provides report on distance travelled From-and-To a specific location

Enterprise Attendance Solution

Key features include:

- **Voice**
  A simple and effective way to mark presence on the portal through your unique voice which authenticates thru the enrolled voice of the user.

- **Fingerprint**
  An easy and efficient mode of reporting attendance using a device.

- **RFID card**
  A resourceful and effortless way to confirm presence using Radio Frequency Identification (RFID) enabled card.

  So, with MobiOcean ...
  - Attendance is based on the setup of location (premises or area).
  - Stops working once the device moves out of the designated location.
  - Validates employee presence within office premises.
  - Attendance can be marked even if internet connection is not available.

SOS Management

Mobiocean delivers advanced SOS features that ensure quick assistance during emergencies for employees of the company.

Key SOS features include:

- Avail nearby location to reach out in case of emergency
